Redwood City	1	Colma	1
South San Francisco	1	Menlo Park	1
Half Moon Bay	1	East Palo Alto	1
San Bruno	1	Pacifica	1
Transient	14	Out of County	5
<b>Total Supervisees</b>	<b>27</b>		

MS			
Pacifica	1	San Bruno	1
East Palo Alto	1		
Transient	7	Out of County	5
<b>Total Supervisees</b>	<b>15</b>		

## Terminations, Revocations and Flashes

There were nineteen (19) terminations during the reporting period. Sixty-three percent (63%) were successful.

Total # of Supervisees Successfully Terminated		Total # of Supervisees Unsuccessfully Terminated	
<b>PRCS – 4</b>	<b>MS – 8</b>	<b>PRCS – 3</b>	<b>MS – 4</b>
<ul style="list-style-type: none"> <li>• Early Terminations: 3</li> <li>• Normal Terminations: 1</li> </ul>			

In the reporting period, we filed a total of thirty-five (35) revocations, with PRCS having twenty-two (22) and MS having thirteen (13) revocations. The breakdown by violation category is below:

Violation Type	PRCS	MS	% of Q3 Revocations
Property	3	2	15%
Drug/Alcohol	2	2	11%
Crimes Against Persons	4	0	11%
Technical	7	9	46%
Other Crimes	6	0	17%
<b>Total</b>	<b>22</b>	<b>13</b>	<b>100%</b>

Generally, the population is reoffending by committing crimes similar to those for which they are on Realignment, namely non-serious, non-violent, non-serious sex related crimes.

Forty-six percent (46%) of revocations were for technical violations. Technical violations of supervision are filed when supervisees abscond or fail to abstain from substance use. It is important to note that the Probation Department usually files formal revocations after lower sanctions have been attempted, including flash incarcerations for PRCS cases. However, at times, officers may decide that a formal revocation is more appropriate than utilizing lower sanctions, depending on the circumstances of the violation. Fifty-four percent (54%) of revocations filed were for new law violations involving crimes against persons, property, drug/alcohol related crimes as well as other crimes.

There were five (5) **flash incarcerations** during this reporting period.

No cases were **transferred** to another county for supervision.

---

### Recidivism Definition

**San Mateo County:** Arrest and/or Charges Filed within 3 years of Last Incarceration in San Mateo County, including warrant arrests, PTA/Court Sentence but **excludes** PRCS flash incarcerations/Revocation, 647/849B1 (no charges filed) or dropped charges.

**Attorney General:** An arrest resulting in a charge within three years of an individual's release from incarceration or placement on supervision for a previous criminal conviction

**BSCC:** A conviction of a new felony or misdemeanor committed within three years of release from custody or committed within three years of placement on supervision for a previous criminal conviction.

**REALIGNMENT BULLETIN Q1: January 2022 — March 2022**

**Executive Summary:**

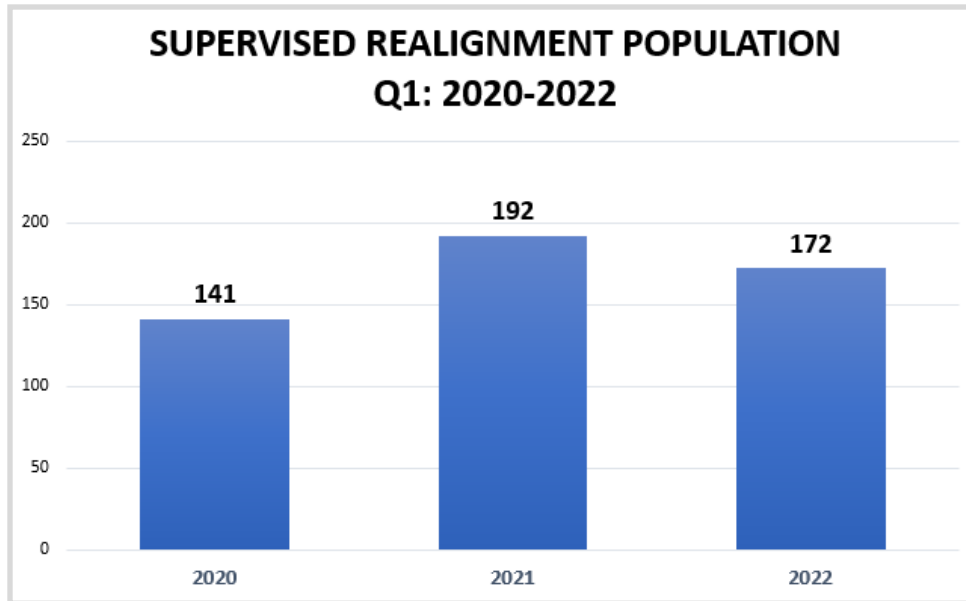

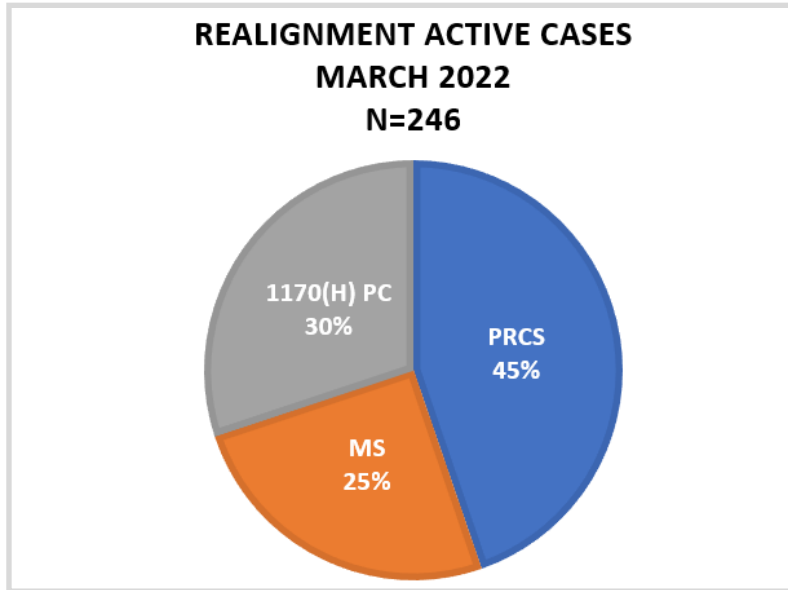

Offenses committed by the supervised and in-custody realignment populations in San Mateo County during January through March (Q1) continue to show that this population commits drug and property crime offenses. There is no significant involvement in serious or violent crime.

**Overview:**

During Q1, **identity theft** (14%) and **burglary** (13%) , **vehicle theft** (12%) and **drug/alcohol offenses** (12%) were the top committing offenses for the realignment population (this includes the new supervised cases and in-custody realignment offenders). Please note, “miscellaneous” refers to a number of assorted offenses that do not amount to any one category. These offenses include but are not limited to: vandalism, stalking, and sex crimes. Overall, there was a slight decrease in the total realignment population during Q1.

The data used for this analysis was derived from information provided by the San Mateo County Probation Department and data from the San Mateo County Jail.

*Note: This data was obtained from different sources (probation, jail) and therefore may overlap slightly. However the preceding analysis provides a general picture of the San Mateo County realignment population.*

**Incompetent to Stand Trial Re-Evaluation Program CY2022 Q1:**

Our partnership with the Department of State Hospitals to incorporate their Incompetent to Stand Trial Re-Evaluation Program has resulted in the following video communication interviews between the incarcerated persons and the State’s designated medical professionals regarding a possible suitability recommendation for a diversion program.

**AB109 In-Custody on the Last Day of the Quarter:**

On the last day of the quarter (March 31, 2022), the total AB109 in-custody population was 8.5% (74) of the overall average daily population (875), an increase from the prior quarter 8.3% (67) with an ADP of 807.

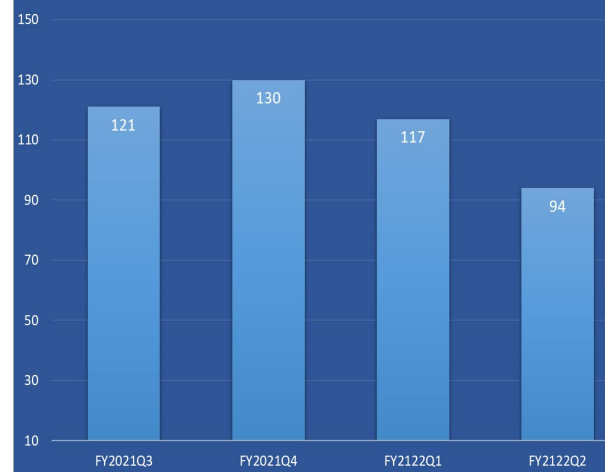

During Q1 CY2022, drugs & alcohol, burglary, and identity theft comprised the top new charges committed by the in-custody population. Please note that the category “Other Property Crimes” refers to offenses such as elder theft, embezzlement, forgery, and larceny. “Miscellaneous” refers to a number of assorted offenses that do not amount to any one category. These offenses include but are not limited to: evading, false imprisonment, stalking, and arson.

# Service Connect BHRS Dashboard

FISCAL YEAR 2021-22 SECOND QUARTER  
SUMMARY REPORT NARRATIVE

SAN MATEO COUNTY HEALTH  
**BEHAVIORAL HEALTH  
& RECOVERY SERVICES**

*Please Note: The BHRS Service Connect Dashboard is presented one quarter in arrears in order to present accurate data because submission deadlines are too soon after the quarter close.*

## AT-A-GLANCE: All Time Total BHRS Referred, Served, Number of Services, or Booking Encounter

The total number of participants referred to BHRS for treatment since July 1, 2017, is 2,892 (increase of 78 over Q1) and of these, 1,659 (increase of 34 over Q1) entered treatment and/or recovery plans (participants served by BHRS and is a lower number because not all assessments result in treatment). Referred is defined as participants showing up for the first post-referral appointment and does not include those referred, but who did not follow through on the referral. This also represents the total number of services, 21,361 (both mental health and substance use treatment) provided to participants since the inception of the program (increase of 1,237).

## Open Service Connect Cases with a Service

This graph represents total Service Connect participants that received at least one BHRS service. The numbers do include participants that continued from quarter to quarter, so a participant could be counted more than once in each quarter if their case was open across multiple fiscal quarters. The Q2 count is 94, which is the lowest of the four quarters presented. The lower count is due to a high number of participants that graduated from the program.

## Engaged Participants with Four or More Services in a Year

“Engaged” is defined as a participant receiving four or more services, meaning the participant has returned to BHRS for multiple appointments for different services, demonstrating the participant is engaged because they actively participate. Engagement was 70% during Q2, which is the second highest level of engagement over the most recent three quarters.

## Percent of Participants with Substance Abuse Recovery Plan or a Mental Health Treatment Plan

This graph presents the percentage of participants who had a mental health treatment plan or a substance abuse recovery plan. Recovery plans are typically at a rate of two to one as compared to a mental health treatment plan. Q2 data is slightly lower than Q1 (2%), but the data is consistent over the quarters presented. Note that co-occurring participants are not represented.

## Living Situation Upon Program Admission and Discharge

This graph shows the living situations of participants at the time the participant was admitted to the program and then the living situation when discharged from the program. The purpose of this measure is to monitor the service impact on improvement of the living situation of the participant.

## Total Individuals Referred to Service Connect and Total Admitted for Services

Not all individuals referred to the program meet the assessment criteria for admission to the program, so this graph measures the difference between the number of persons referred and the number that are admitted and served for each quarter. The results for Q2 demonstrate an increase in referrals as well as the number admitted and served.

## Social Orientation and Gender Identity (SOGI) Data

BHRS collects SOGI data at admissions and across the life of a case to inform other levels of government of the needs of all populations. BHRS collects this data in five categories: Sex at Birth, Gender Identity, Intersex Value, Sexual Orientation, and Pronouns. Q2 displays only Sexual Orientation and Pronouns because there was no variation in data reported for the other categories.

## Correctional Health Services

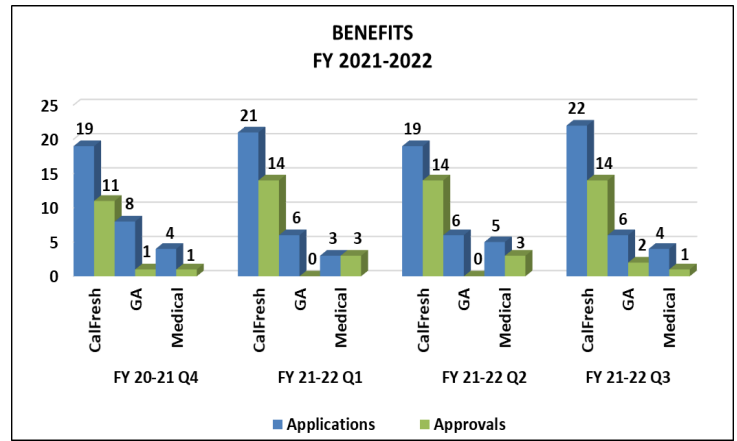

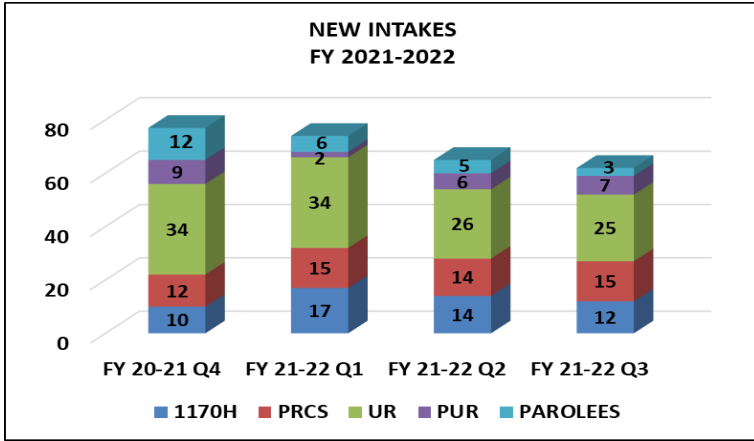

Correctional Health data presents the total participants that flow through Correctional Health by quarter. The counts represent the participants who were screened, medically treated, and referred for mental illness and substance abuse treatment. FY21/22 Q2 referrals increased for mental health, Service Connect, and most notably, AOD Services, compared to the previous two quarters.

## Service Connect Cases with PES Counts

A Psychiatric Emergency Services (PES) count is when a Service Connect participant has presented themselves at PES. Those participants that were not admitted are shown as a “visit” and those admitted are shown as “inpatient.” Involvement with PES is only counted if enrolled in Service Connect—counts do not include episodes when subject was not a participant in Service Connect. FY 21/22 Q2 counts (14 visits; 1 inpatient) remained lower than what is typical, which is approximately 25 visits and 5 inpatient.

---

*FY 21-22, Q3 (January 2022 – March 2022)*

## New Intakes

- There were 62 intakes in FY 21-22 Q3.
- Intakes in Q3 by program type: 44% AB109, 40% UR, 11% Probation UR, 5% Parolees.
- There were seven Probation UR served in Q3 a total of 26 since its inception in March 2021.
- Under the virtual intake pilot program initiated in coordination with Sheriff's Office, 25 virtual intakes were completed in Q3 accounting for 40% of intakes.

## Eligibility/Benefits

- There were 32 applications received and processed in Q3: 22 CalFresh, 6 General Assistance, 4 Medi-Cal.
- There were 17 approved applications in Q3: 14 CalFresh, 2 General Assistance, and 1 Medi-Cal.
- Denied applications totaled 20. Top three reasons for denial were failure to provide verifications, missed appointment or phone interview, and active in another county. There was one application withdrawal.

## Employment Services

- In Q3, 29 clients obtained employment. Subsidized placements comprised 66% and unsubsidized employment 34%.
- Services and hotel & food were the top two businesses that employed clients in Q3.
- Average wage per hour for unsubsidized employment was \$23.48.
- There were nine in-custody virtual employment workshops conducted in March of Q3 with 74 participants.

## Services Provided

- Transportation and communication were the most requested service in Q3: 145 monthly bus passes, 110 bus tickets, 47 phones, and 54 phone cards were issued serving an average of 82 clients per month.
- Food assistance was the second most requested service: 297 meal vouchers, 201 Safeway cards, 41 food totes were issued serving an average of 76 clients per month.
- Other services provided were personal supportive items. Clients were provided with 84 clothing vouchers, 84 Target cards, 35 hygiene kits.
- In Q3, there were 55 clients who utilized the motel voucher program and three clients provided with shelter bed placement. Shelter bed placements were limited due to Covid-19.

## Peer Support Services

- There were 35 clients who received peer support services in Q3: 61% face-to-face meetings, 24% phone check-ins, 10% transportation, 5% administrative support.
- Iron Sharpens Iron support group had 16 participants over 13 meetings and provides a platform to discuss various barriers to successful reentry.
- In Q3, 27 clients participated in 20 interactive journaling sessions. This is an evidence-based model that provides cognitive behavioral therapy-based psychoeducation to participants.
