Kaila--

I'm Sally Einspahr, and I live on the southwest side of the address of 1175 Palomar.

I would like very much to talk to you regarding a few questions about T-Mobile permit renewal.

I have tried to call you this AM but only could leave a message and not sure if you would even

get the message to call me back. My cell phone # is 360-220-5555. email of [saleinspahr@aol.com](mailto:saleinspahr@aol.com)

#1. How does one get a copy of the 2014 court decision that is missing from your projected

site plan for the renewal of a use permit for T-Mobile at the 1175 Palomar site? We in PP HOA

were never given a copy of the decision. That decision should have been sent out.

#2. Your proposal is lacking the explanation/or any follow thru as to the fact that Sprint towers

were removed several months ago.

#3. We in Palomar Park are very concerned that without Sprint locating on the property several new companies will want to co-locate in their space. This site must not be turned in to an **Antenna Farm in any shape or form**. County needs to stipulate no co-location!!!!

#4. What if anything can the County do to help the homeowner who doesn't want the antenna on their property? The homeowner was threatened by the cell company if they didn't sign the agreement they would be sued. This is not right and something should be done to squash this kind of behavior by big cell companies.

#5. Would like for you to visit the site with owner and the 2 neighbors on either side of the property. Perhaps that would be informative for you to see why all the neighbors get so concerned about Cell Towers.

Regards

Sally Einspahr
