Hello. I recently came across plans for a house on Medio in El Granada (APN 047-044-200). (I live just up the street from this address).

This home has a cool contemporary aesthetic and I feel like this would be a good addition to the neighborhood.

Thanks for giving me the opportunity to throw in my 2 cents.

To Whom It May Concern,

re: PLN 202100292

As a longtime resident of El Granada I am very pleased that projects like this are finally coming forward.

This handsome modern home designed by Stuart Grunow, an award winning local professional architect, reflects his dynamic vision for the future

of the coastside.

The lines of this home look clean and simple, but I can see his attention to detail and quality.

The homes many large windows take in the surrounding natural beauty. Its subdued exterior colors and dramatic stone feature blend

well with that natural beauty.

This is a distinctly refreshing departure from the ho-hum style homes that have been built on the coast. (my humble opinion)

I believe it is important that we take advantage of the vision and talent of this award winning local architect.

I wholeheartedly support this project.
